

Nuke Day 2009

Thursday, February 19th

Did you know?

NC State was the 1st university to have a non-governmental research reactor;
The PULSTAR research reactor went critical in 1972; and,
Students can become licensed reactor operators.

**Do we create electricity for downtown Raleigh? for NC State?
What type of forensic work do we perform?**

What really happens in Burlington Engineering Labs, come visit us and see!

1. Nuclear Reactor Tours

Every half an hour

First tour at 10 a.m., last one at 11:30 a.m.

Registration is now closed, see those individuals who registered & received our confirmation Thursday morning.

Meet in Burlington Engineering Labs' main foyer (arboretum side, in front of glass display). Must have your campus ID.

2. Nuclear Engineering Research Seminar

" Environmental Ethics & Nuclear Energy"

Dr. Susan Sterrett, Duke University

4:00-5:00 p.m.

Room 1202 Burlington Engineering Labs (Stinson Dr. entrance)

Part of Engineers' Week 2009
