

YOUNG INVESTIGATORS' SUMMER PROGRAM IN NUCLEAR TECHNOLOGY AND ITS APPLICATIONS

NC State University
Department of Nuclear Engineering
Raleigh, NC

PROGRAM RULES

- Use and/or possess alcohol and/or drugs are strictly prohibited.
- Be in your suite by 11:00 p.m.
- Compliance with counselors and attendance at scheduled classes, laboratories, tours and hall meetings are mandatory.
- No weekend departure from the campus will be allowed with the exception of program activities.
- No personal cars during program.
- Smoking is strictly banned in the dormitory and in university buildings.
- All residence halls, other than the one you have been assigned to, are off limits.
- There are to be no visitors outside the program in your residence hall.
- No food or drinks allowed during classes and research projects.
- Shoes are required in buildings at all times.
- Your room key must be returned at the end of the program.

I understand and accept the program rules, and understand that revoking any of these rules will result in immediate termination from the program.

Liability release and indemnification ... It is agreed that the university, its officers, employees, agents and its departments shall not be liable for any claims, demands, damages, injuries or cause of action arising from use of the facilities and/or scheduled activities. You hereby forever release and discharge, indemnify and hold harmless the university, its officers, employees, agents and its departments from all such claims, demands, injuries, damages or causes of action.
